

Dear Parents,

We all are going through difficult time due to Corona virus(COVID-19).

It is bad out there. We want everyone to avoid exposure, but at the same time many other day to day problems do happen like Flu, Strep Throat and other infections.

To avoid exposure in our office and to make everyone comfortable, we have taken few steps, so you can come to our office without any worries.

We have taken following steps:

- **Office is NOT BUSY at all.**
- **We sanitize each room appropriately after each patient visit as needed.**
- **Well care – patient’s timings will be different then sick care.**
- **When you call for appointment, you will be asked few questions, to decide if we need to take any precautions.**
- **If you are still worried, when you arrive in parking lot, stay in car and notify us. You will be asked to come in at your turn and will be directed straight to the examination room.**
- **As of now, we are NOT doing any test for Corona. If situation changes, we will notify you.**
